**Interim Management**

**Project Management**

**Process Optimization**

**Training and Coaching**

**Restructuring and Turn around**

## who we are

**Stamm Consulting Group (SCG)** is an international management consulting group dedicated to business restructuring, turn around and business reorganization. Since 2004, we help our customers to cut down costs, implement efficient processes and optimize performance.

Our mission is to support our clients to work more efficient and more effective, and by doing so achieve sustainable growth.

## what we **do**

**We are your partner to prepare your business for the challenges of the future:** Our clients benefit from our extensive pragmatic experience and the multicultural know-how of the professional team of Stamm Consulting Group.

**Together we increase the competitiveness of small and medium-sized companies** and improve the performance by establishing competitive best-practices standards and by implementing the **Lean Management philosophy:**

- We implement cost-cutting programmes
- We identify and eliminate inefficient processes
- We optimize the operational processes chain in your company

## our team

**Stamm Consulting Group (SCG)** is comprised by highly experienced and multicultural professionals with many years of practical experience in management functions, both on national and international level. We speak your language – not only do we offer our consulting services in English, Spanish or German, we also speak plainly: Our solutions are precise, practical and we implement them in a short period of time. We don't impose solutions on our customers, we develop them together with our customers and implement them together. Because we know that we can only achieve long-term successes working together with our clients as a team.

*The open and cooperative approach of our consultants is, without doubt, the determining factor for the success of any project.*

# why Stamm Consulting Group
